

VIDEO RECORDING INFORMATION

Hi there, my little songbirds!

So, it is time to record your video. I will go through this with you in the last 3 rehearsals this week, but in the meantime....Read these instructions VERY carefully. Here is exactly what you all need to do to record:

1. Click on this link:

www.differentgravity.com/vcs/Benetas

Code is: abso125

2. Download the video on the left of the page named **Benetas Instructions** and watch it carefully.

3. Then, from the left of the page again, download the **Absolutely Everybody_all parts** video (onto your second device - either laptop or iPad, for example). This is what you will watch and listen to as you record your video on your phone.

4. Record your video on your phone as explained on the instructions video. Don't forget to clap with me in the second bar.

5. On the link that you have opened, now look at the right hand side of the screen. There is an **Upload Your Video** section. Fill in your name and select the part you are singing or performing.

6. After you have filled in the boxes and selected your vocal part/photo, click on the area below, in the square. Select your video from the file you have just recorded.

7. Press the submit button.

8. At the top of that box, you can now see your video uploading. When it finishes, it will say **done**.

9. Well done, you are finished! It's been a pleasure to work with you all and I hope this turns out a real treat!
